FOR BEST RESULTS – We do not recommend writing in cursive. Because some characters vary in the way in which they connect to other characters, the appearance may appear broken in some character combinations. For example, connecting the cursive letter "a" to the cursive letter "t" happens at the baseline, whereas connecting the cursive letter "a" to the cursive letter "o" happens higher than the baseline.

CHARACTER SET – Please write the following characters for your signature font below or on a separate sheet of paper. Keep consistent pressure on your writing instrument and be consistent on the size of your characters. You may mark through any mistakes you make. The quality of your handwriting font is directly related to the quality of your original handwriting.
